

**Is your personal information secure?**

# My password maker

## Mix'n'match more than 10 digits:

lower case + UPPER CASE + numbers + special characters = a perfect password

1. Think about a sentence (a passphrase),  
eg. *It is cold in winter.*
2. Write every first letter of each word,  
eg. *iiciw*
3. Make every second letter CAPITAL,  
eg. *liCiW*
4. Add numbers and special characters,  
eg. *(\*4liCiW4\*)*

Now your turn! No, don't write your password down!

## Discussion time

Read the scenarios on the cards. Discuss the answers with your partners.

<p>1. You lost your bank card or it got stuck in the cash machine. <b>Q: What do you do?</b></p>	<p>2. Someone calls you and says they call from your bank. They ask you to give them your personal details. <b>Q: What do you say?</b> <b>Q: What do you do?</b></p>
<p>3. You get an email from a person you don't know. The email asks you to click on a link in that email. <b>Q: What do you do?</b></p>	<p>4. Some money disappeared from your bank account. The statement shows transactions in Italy. You have never been to Italy. <b>Q: What do you do?</b></p>
<p>5. You forgot to sign out from the computer at college. Next day your teacher says they got a rude email from you. <b>Q: What do you do?</b></p>	<p>6. Someone saw your password written down in the notebook. They know your email address. <b>Q: What do you do?</b></p>
<p>7. You find a USB stick on the street. You are happy because you need one for college. <b>Q: What do you do?</b></p>	<p>8. You get an email from a person you don't know. The email asks you to open the attachment in that email. <b>Q: What do you do?</b></p>

## Teacher's notes:

1. You report it to the bank immediately. They block the card for you, so no one can use this card and spend your money.
2. Say "I don't give any personal information out on the phone. Please send me a letter." Call the bank yourself (but not the number people who called gave you). Go to the bank to ask why they called you. The people who called you may only pretend they are from the bank.
3. Don't click on the link (it may contain viruses). Report the email to IT services and delete it.
4. Contact the bank immediately to report the problem.
5. Speak to your teacher. Apologise. Explain the situation. Report it to the IT team. Check if anything else is not changed.
6. Change the password immediately. Don't write it down.
7. Do not use it. It may contain viruses.
8. Don't open the attachment (it may contain viruses). Report the email to IT services and delete it.
